

# MASARA facility

MUSIC & MORE

Massara Facility was born in 2017 as a sister company of Viganò Musica, leader of pianos and musical instrument transportation since 1989 who, thanks to the experience gained moving the main Italian orchestras around the major Cities worldwide, has decided to offer a 360 degrees service to its customers through Massara Facility, providing the renting and sell of all the supporting equipment needed for the best performance of a concert.

The permanent and long cooperation with first level Italian musical entities such as Teatro alla Scala, orchestra Verdi, Maggio musicale Fiorentino as well as the contact with directors like Chailly and Muti, allowed Massara Facility not just to produce, but to improve the complex and different orchestra's equipment in order to make them more functional to the users and suitable for any market needs.

Our main task includes is the design and production of working chairs and stools for orchestrals with ergonomic adjustments, able to satisfy the funcional needs in terms of safety and health, other than the creation of flight cases for musical instruments and carbon-fiber music stands for Directors.

The particular favourable area of northern Italy where Massara Facility is placed, is probably one of the best areas to be for the creation of products which represents the finest Italian quality and excellency.

**CHAIRS**

## ORCHESTRA CHAIR

Metal frame, shockproof and anti-scratch powder coated. Strong multilayer seat mounted on rubber pads with rounded front edge to prevent circulation problems and leg fatigue. The backrest ensures a natural position of the body in order to provide excellent condition to practice music.

Fire retardant and stain proof fabric.  
Stackable x5.

SF00N1

SF00N3

SF00N2

## ADJUSTABLE CHAIR

Professional chair with 5 way adjustments to ensure the best possible comfort to musicians. Metal frame, shockproof and anti-scratch powder coated. Strong multilayer seat mounted on rubber pads with rounded front edge to prevent circulation problems and leg fatigue.

Fire retardant. Stackable x4.

Backrest depth adjustment:  $-9^{\circ}$   $+16^{\circ}$

Seat tilt adjustment:  $-4^{\circ}$   $+9^{\circ}$

Seat height: 48 - 54cm.

SROAN1

SROAN2

## SEMI ADJUSTABLE CHAIR

SS00N1

SS00N2

Manual adjustment from 0 to 7°. Metal frame, shockproof and anti-scratch powder coated. Strong multilayer well made seat mounted on rubber pads with rounded front edge to prevent circulation problems and leg fatigue. The backrest ensures a natural position of the body in order to provide excellent condition to practice music.

Fire retardant and stain proof fabric. Chairs piled by 6.

**STOOLS**

## DOUBLE BASS STOOL

With anti-rotation system. Adjustable height with pneumatic spring mechanism by means of a release lever, from 53 to 78 cm.

Backrest adjustment in height by means of a knurled screw.

Seat and backrest: lining in polyurethane foam 40 kg/m<sup>3</sup> density.

Flame retardant fabric classe 1 M according to UNI 9175.

Triangular steel footrest adjustable in height and aluminum basement.

Fire ritardant.

Weight: 12kg
